Sinhala

English

## Projects

### E-Commerce Shopping website

Developed a full-stack E-Commerce shopping website using the MERN stack (MongoDB, Express.js, React.js, Node.js). Designed a responsive front-end with React and Tailwind CSS, and integrated RESTful APIs for seamless back-end operations.

### Coffee shop system

Built a Coffee Shop Management System using the MERN stack with Tailwind CSS for a modern and responsive UI. Integrated RESTful APIs for back-end operations and optimized the application for smooth user experience.

### Inventory Management System

Developed an Inventory Management System using the MERN stack with Tailwind CSS for an intuitive interface. Integrated RESTful APIs for efficient data handling and ensured a responsive and user-friendly design.

### Blog Site

Created a full-stack Blog Site using Next.js with dynamic routing and server-side rendering for optimized performance. Implemented user authentication, blog post creation, editing, and commenting features. Designed a responsive interface and integrated a secure back-end API for content management.

### E-Learning System

Designed and developed the front-end of an E-Learning System using React and Tailwind CSS. Built responsive layouts with interactive components, smooth animations, and user-friendly navigation to enhance the learning experience. Focused on clean UI/UX design principles for improved usability.

### Blog site

Developed the front-end of a Blog Site using React and Tailwind CSS. Designed responsive layouts with modern UI components, interactive features, and smooth navigation to improve user engagement and reading experience.

### To-Do App

### Portfolio

### Tic-Tac-Toe App

### Personal File System

(html, js, php)

### Letter Management System

(html, js, php)

### Sports Club registering System

(html, js, php)

## Certificates

- Postman API Fundamentals  
Student Expert
- Sololearn - ML for Beginners
- Introduction to Cloud  
Computing
- React Javascript -  
Fundamentals To Coding &  
New Beginnings
